

## Evaporator: puriVap-6<sup>TM</sup>

Our compact evaporator with multiple positions Super simple. Super smart.

| Adjusting<br>the nitrogen supply         | Individual monitoring of the nitrogen supply  |  |
|--|---|--|
| Number of samples                        | Up to 6 samples simultaneously  |  |
| Components                               | Integrated screen to control the temperature (indicates actual and target value)<br>Uniform aluminum heating block<br>6 aluminum adapters for use with test tubes<br>6 measuring vials 40 mL<br>6 stainless steel needles (height of the needles individually adjustable)<br>Corrosion resistant parts made from PTFE |  |
| Sizes of the compatible<br>vials & tubes | Volume 2 mL to 60 mL  | 28 x 140 mm (vial 60 mL)<br>28 x 115 mm (measuring vial 40 mL)<br>28 x 95 mm (vial 40 mL)<br>28 x 110 mm - insert 1 mL diameter (vial 40 mL)<br>18 x 150 mm (tube 25 mL)<br>16 x 150 mm (tube 22 mL)<br>16 x 100 mm (tube 12 mL)<br>13 x 100 mm (tube 10 mL)<br>12 x 32 mm (vial 2 mL) |
| Nitrogen supply                          | Nitrogen supply pressure: max. 2 bar (0.2 MPa)  |  |
| Power supply                             | Voltage: 220V AC<br>Power cord of choice: UK, US, European  |  |
| Dimensions & weight                      | Weight: 5 kg<br>17.5 cm (6.8")  |  |
